Summer classes to be announced...

Covid-19 Safety:

- Please wear a mask if you prefer. The city has lifted the mask requirement for arenas.
- Please obey signs posted in the facility.
- Parents please meet your child where they exit the ice and return to your designated area after the lesson to change and leave the facility promptly to make space for the next user group.
- **One spectator per participant** - please limit the number of people in the facility. Maximum one person per skater allowed in the dressing room to put on equipment.

Equipment - General Information:

- Please see the list provided on the first page of brochure. Skaters must provide their own equipment.

Skates:

- Hockey skates or Figure skates purchased from ProSkate or United Sport and Cycle are strongly recommended. Skates that fit well with laces all the way up and good ankle support will give your child the best opportunity to excel at their lessons.
- No plastic skates with buckles. They are difficult to learn in and the coach will likely suggest skates with laces instead.
- Skate sizes are different than shoe sizes - Please bring your child with you to have their foot measured at the store.
- Skate blades must be sharpened at the store prior to use. This gives the blade edges to use to push and glide across the ice.
- Skate laces should be tied snugly from the toe up to the ankle to support the foot and promote good body alignment.
- Skate guards protect blades and preserve sharpening while walking on floor.
- Bring a rag or small towel to dry off skate blades before putting them into the bag for storage. This prevents rusting and preserves blade quality and sharpening.

Figure Skates

Hockey Skates

Hockey Helmets:

- Hockey helmets are required for all group classes.
- No Bicycle helmets - not permitted on the ice.
- Skaters without proper helmet will not be allowed to skate that day.
- Cage to protect face is recommended, but is optional.

Clothing:

- Wear winter gloves, jacket, athletic pants.
- Avoid fuzzy gloves - as they stick to the ice and leave fabric behind.
- Avoid snowpants - as they often restrict range of motion and make it difficult for beginners to get up.
